

PROFILE

A results-driven Software Developer with hands-on experience in Backend development, IoT systems, JavaScript and modern frameworks like React. Proven ability to design, develop, and deploy scalable solutions in team and independent settings. Seeking to contribute technical expertise and innovative problem-solving as a Software Developer.

SKILLS

Languages: Python, JavaScript, Java

Frontend Development: React, HTML/CSS

Backend Development: FastAPI, Node.js (basic).

Databases & Tools: SQL, Git.

Data Manipulation & Visualisations: Matplotlib, pandas, NumPy.

EDUCATION

IIMT College of Engineering, Greater Noida. (2022-2026)
B. Tech in Information Technology

Obaidullah Siddiqui

PROJECTS:

- **Medical Recommendation System** | **Developer** - Built an ML system for personalized medical treatments, improving patient care and reducing manual diagnosis time.
- **Signature forgery detection** | **Developer** - Developed a signature authentication ML model with 97% accuracy, enhancing fraud detection and streamlining document verification.
- **Emotional-Logical Chatbot** | **Developer** - Developed a Flask and LangChain AI chatbot leveraging Groq's LLM API for natural language processing with session-based chat history.
- **Movie Management System** - Full-stack CRUD web app using Python + TiDB Cloud for cloud-based movie data storage, search, and real-time updates.
- **Water Management & Smart Generator Systems (IoT)** | Developed real-time IoT monitoring for water (25% waste reduction) and generator performance (30% downtime reduction using predictive analytics) with remote dashboard control.

WORK EXPERIENCE:

- **Internship - CROMA CAMPUS – (Jun 2025-Aug 2025)**
Built an autonomous AI coding agent using Python and Gemini API, featuring a tool-calling loop for file analysis, code execution, and automated task completion.
- **Oct 2022 – Aug 2023:** Deployed IIoT solutions using ThingWorx, troubleshooting hardware-software integration to ensure sensor network functionality.

CERTIFICATOINS:

- **Java Full Stack Development Workshop** | CROMA CAMPUS | Apr 2025.
- **Data Science & Machine Learning** | UnCodemy | One-day Industrial Visit-Cum-Workshop.
- **Dysmech Competency Services Private Limited (DCS)** — IIOT Basic Introduction using Thingworx (Oct 2022 — Aug 2023).
- **Barrier Buster Bot (Centrado Kit)** | Infosys Springboard | Apr 2025.
- **Expert English Programme-** SKAE India Ltd. (June – Aug 2022).

ACHIEVEMENTS /AWARDS:

- Delivered **2 high-profile IoT prototypes** (Water Management & Smart Generator) with full functionality.
- Led end-to-end development for 4+ projects, ensuring **on-time delivery** of innovative solutions.
